EXPERIENCE

Line Cook   May 2022 - present
Trans Canada Brewing   *Winnipeg, MB*

- Worked with team members efficiently to get the tasks done.
- Assisted with inventory management and order, ensuring that all ingredients and supplies were stocked and readily available.
- Collaborated with other kitchen team members to ensure efficient and effective kitchen operations.

Backend Developer   Apr 2020 - June 2021
Kartar Corporation   *Chandigarh, India*

- Implemented RESTful APIs to facilitate communication between frontend and backend systems, streamlining data exchange and enhancing user experience.
- Developed scalable backend solutions using Node.js and Express.js framework, resulting in a 30 percent improvement in application performance.
- Collaborated with cross-functional teams to gather requirements, design technical solutions, and deliver high-quality backend services on time and within budget.

PROJECTS

NetWatch. NetWatch is a Netflix clone web application that replicates the core functionalities of the popular streaming platform. Developed using modern web technologies, using MERN Stack and Firebase realtime database. [(Try it here)](#)

CorpWeb. CorpWeb is a front-end project aimed at enhancing the user experience and visual appeal of a corporate website, using technologies such as React and tailwind css. [(Try it here)](#)

Tenzies. Tenzies is a fast-paced dice game where players race to roll and match their dice to a target pattern, made using React.js. [(Try it here)](#)

EXTRA-CURRICULAR ACTIVITIES

- Won the national badminton championship in India under-19.
- Volunteered at the Lions of Punjab club based in India.
